ELK 1795

WORKBOOK

COLLECTION AW 2017-2018

Explore The Wild

The wild and unique wildlife of Alaska and its rich game stock was discovered as early as in the 1700s. Behind the product development of the Alaska Elk 1795® clothing collection there is a group of experienced hunters and clothing designers. They have teamed up with top-ranking professionals, such as the world's leading garment laboratories. This collaboration has resulted in a new generation clothing line for active hunters.

The Alaska Elk 1795® collection brings the comfort of hunting clothing to a whole new level and it meets the highest requirements of the active hunter: High quality product development, the best materials and excellent technical functionality ensure that the hunting trip is successful and pleasurable, regardless of the conditions – even in the Alaskan wilderness.

OUR HIGH QUALITY TECHNOLOGIES FOR ACTIVE HUNTERS

COOLDRY TECHNOLOGY

Alaska CoolDry is a high-performance microfiber polyester fabric that transfers sweat from the body to the fabric surface, where it evaporates. As a result, CoolDry keeps the hunter cool, dry and comfortable.

THERMODRY TECHNOLOGY

Alaska ThermoDry is a brushed microfiber fleece that retains energy and prevents heat loss. It provides maximum insulation from cold with minimal weight and bulk. It is ideal for any cold weather hunting that requires insulation.

MERINO WOOL

Amazingly soft merino wool is naturally breathable and warm material. It feels nice and cool when needed and it also dries very quickly.

Hi-DRY™ treatment makes the outer fabric water and dirt repellent. The material also dries quickly and maintains its exceptional lightness.

100% waterproof, windproof and breathable membrane that has been tested in several laboratories and in extreme wildlife conditions.

New, ultralight 3-layer is a technical and durable construction in which the outer fabric, Rain-Stop® membrane and breathable inner lining have been laminated together.

RAIN-STOP® OUTERWEAR MEMBRANE TECHNOLOGY

- WATERPROOF
- WINDPROOF
- HIGHLY BREATHABLE

For our products we have chosen a membrane of the highest possible quality utilizing Rain-Stop® technology. The excellent waterproofness and breathability of the Rain-Stop® membrane for outerwear and Rain-Stop® X-PROOF for footwear have been proven in several different laboratory tests.

ALASKA ELK 1795® CAMO PATTERNS

BLINDTECH INVISIBLE™ CAMO

BlindTech Invisible™ is a new digital camo pattern, which is exceptionally based on misleading the eyesight of the prey, whereas traditional patterns are based on the eyesight of humans. Studies show that the optimized colour combinations of the camo pattern combined with a breaking structure provides better camouflage from the prey. BlindTech Invisible™ camo is suitable for hunting in various types of terrain.

BLINDTECH BLAZE™ CAMO

BlindTech Blaze™ is a new digital safety camo pattern, which is exceptionally based on misleading the eyesight of the prey, whereas traditional patterns are based on the eyesight of humans. The breaking structure of the camo pattern provides proven low visibility to the prey, while the safety colour improves visibility to other hunters.

BLINDTECH™ SNOW CAMO

The BlindTech™ Snow camo pattern is designed to match the foliage and colors of snowy Nordic nature in winter. It is based on misleading the eyesight of the prey, whereas traditional patterns are based on the eyesight of humans. BlindTech™ Snow is effective in all hunting situations in snowy conditions.

BLAZE 3D™ SAFETY CAMO

The Blaze 3D™ safety camo pattern keeps you safe and highly visible to other hunters while making you invisible to the prey. The carefully chosen HD photographed elements guarantee better optical illusion that blends the hunter into the environment. The Blaze 3D™ safety camo pattern is for all purpose making it effective in a variety of hunting situations and environments.

BLIND MAX HD™ CAMO

The Blind Max HD™ camo pattern is designed to match the foliage and colors of Nordic nature. Even more natural colors and carefully chosen HD photographed elements guarantee better optical illusion that blends the hunter into the environment. The Blind Max HD™ pattern is for all purpose making it effective in a variety of hunting situations and environments.

BLINDTECH™ SAFETY MIX AND BLIND MAX HD™ SAFETY MIX

The combination of green and orange camo patterns makes you both invisible to the prey and provides you and other hunters safety. Combinations come with both - digital BlindTech camo and traditional Blind Max camo.

VAPOR HUNTING SUITS

HYBRID Hunting Suit

AE1795001

We combined unbelievable lightness, flexibility and exceptional breathability. We call it Hybrid. Rain-Stop® 3-layer material can be found from parts that are most exposed to rain and wind. You need to wear it to believe its amazing comfort. This slim fit suit is an excellent choice for an active hunter for the warmer hunting weathers.

Sizes: XXS-3XL

VAPOR Hunting Suit

AE1795130

Our new Vapor hunting suit is very similar to Hybrid, but it uses BlindTech Invisible camo for making the hunter disappear in the eyes of the prey. Vapor is exceptionally light, flexible and breathable. Carefully positioned Rain-Stop® 3-layer material provides safety from rain and wind. This slim fit suit is an excellent choice for outdoor activities and hunting.

Sizes: XXS-4XL

Alaska[®]
ELK 1795

EXTREME LITE HUNTING SUITS

EXTREME LITE PRO UX Hunting Suit

AE2015002

The Extreme Lite Pro hunting suit is the most popular suit in the Alaska Elk 1795® collection. Its exceptional lightness (even 35% lighter than traditional hunting suits) and quick drying material guarantee excellent performance in demanding hunting situations. 100% waterproof and highly breathable Rain-Stop® membrane wicks the moisture away keeping you dry. The Extreme Lite Pro suit is the most multifunctional Alaska suit for an active hunter. Material: 100% polyester.

Sizes: XXS-4XL

YKK

BLIND MAX HD™ UX **Brown Camo Hunting Suit**

AE2015004

Blind Max HD™ is a versatile camo suit providing optimal camouflage in various hunting situations and terrain types. The excellent lightness (up to 35% lighter), extensive properties - such as several spacious pocket structures and well-fitting design - provide the best comfort. Material: 100% polyester.

Sizes: XXS-4XL

YKK

BLIND MAX HD™ SAFETY UX **Safety Camo Hunting Suit**

AE2015005

Blind Max HD™ safety is a versatile safety camo suit providing optimal camouflage as well as improved safety. The excellent lightness (up to 35% lighter), extensive properties - such as several spacious pocket structures and well-fitting design - provide the best comfort. Material: 100% polyester.

Sizes: XXS-4XL

YKK

BLAZE 3D PRO 2.0™ SAFETY UX Safety Camo Hunting Suit

AE1795131

Super popular Blaze 3D Pro 2.0 is back as an improved version. The suit keeps you safe and visible to other hunters while the effective camo pattern makes you invisible to the prey. Rain-Stop® membrane keeps you safe from rain and wind. Blaze 3D Pro 2.0 has a variety of qualities that make your hunting trip all the more comfortable.

Sizes: XXS-4XL
